Software Development Engineer with a solid foundation in software development, process optimisation, and project management. Proven experience collaborating with cross-functional teams to deliver solutions that enhance operational efficiency. Adaptable, quick to learn, and an excellent communicator, committed to continuous improvement in dynamic environments

## EDUCATION

### Eastern Mediterranean University (Honours)

Bachelor of Science in Software Engineering

*February 2021 – June 2022*

Famagusta, Cyprus

### Eastern Mediterranean University (High Honours)

Bachelor of Science in Applied Mathematics and Computer Science (Transfer)

*September 2017 – January 2021*

Famagusta, Cyprus

### University of Groningen

Bachelor of Science in Mathematics (Transfer)

*August 2016 – February 2017*

Groningen, the Netherlands

## WORK EXPERIENCE

### Apple

*Software Development Engineering — Cork, Ireland*

August 2023 - Present

- Lead software development and project management for Cork and Distribution Centres, including onsite support abroad to manage the Shop Floor System for high-volume manufacturing and optimize production processes.
- Collaborating with cross-functional stakeholders (machine engineers, operations managers, and quality assurance teams) to gather requirements, aligning solutions with product introductions and process optimisation needs.
- Developing the project management structure within the team, fostering structured planning and execution for both ongoing and new initiatives.
- Leading solution design, integration, and deployment within a diverse technology stack, ensuring robust software performance through extensive unit and integration testing.
- Deliver end-user training and support, enhancing operational efficiency and user experience.

**Key Technologies:** PHP, Symfony, Twig, JavaScript, MySQL, Bootstrap.

### Manta Ray Media

*Web Developer — London, UK (Remote)*

February 2023 – May 2023

- Maintained and improved Drupal-based websites and API services for various clients, ensuring high performance and reliability.
- Designed and styled custom content layouts according to specifications and user feedback, enhancing user experience.

**Key technologies:** Symfony, jQuery, GraphQL, Drupal, Bootstrap, SCSS.

### Cyprus International University

October 2021 – October 2022

*Full Stack Developer — Nicosia, Cyprus*

- Improved and maintained an admin portal for tracking Covid-19 cases and contacts, contributing to national public health initiatives.
- Developed critical modules, including the Patients Module, used by national airports and health authorities.

**Key technologies:** Laravel, JavaScript, Bootstrap, MariaDB, WAMP, Trello.

### Analiz Systems

July 2020 – September 2020

*Software Developer Intern — Famagusta, Cyprus*

- Designed and implemented a phone book application with CRUD operations, gaining practical experience in C# and .NET frameworks.

**Key technologies:** .NET Framework, C#, Bootstrap, CSS.

## SKILLS

**Languages:** *PHP, C#, JavaScript, HTML/CSS, SQL*

**Frameworks & Libraries:** *.NET, Laravel, Symfony, jQuery, Vue.js, React.js*

**Databases:** *Microsoft SQL, MySQL, MariaDB, GraphQL*

**Tools & Platforms:** *GitHub, GitLab, JIRA, Wrike, Docker, Linux/Ubuntu, MacOS, Windows*

**Additional certifications:** Wrike Certification, Fundamentals of Project Management Certification, Apple University-sponsored training.

## HOBBIES

Social activity planning for current team, participating in algorithm challenges (CodeAcademy, HackerRank), and engaging in side projects to stay current with industry trends.
